

Becoming Who We Are

1. What's the problem with the Galatian church in our text?
2. Do you recognize this issue in your own life?
3. What is sanctification?
4. Can good things become bad for us?
5. What things do you think you care about too much?
6. Are the things you love evidence that you don't actually know Jesus, or are they evidence that you're not acting like you do?
7. Can you live the Christian life alone?
8. Why do you need other believers?
9. Do you know some other Christians that would be willing to talk about life with you regularly? If so, will you ask them to?
10. What are some ways you can help other believers reach spiritual maturity?
